

# DORSET SOLDIERS CASTINGS

PAINTED FIGURE collectors might like to know that painted figures and sets can also be produced from the castings lists.

## ABOUT DORSET SOLDIERS

- ❖ Dorset Soldier castings are approximately 54mm tall and cast in white metal. Please ask the exact height if you want figures to fit in with other soldiers in your collection.
- ❖ Castings are supplied straight from the mould and will need flash cleaning with a knife and file before painting. I can quote to clean and assemble figures for you, if you prefer this.
- ❖ As many of the figures are made to collectors' own specifications, the style of figures varies from slight, traditional toys in the old 'Britains' format to detailed, chunky, near-models. I have tried to reflect this in the descriptions. Please contact me if you have an idea you wish to explore.
- ❖ Spare parts are available to repair broken old soldiers or convert figures in the lists.
- ❖ I can quote to repair your broken old soldiers.
- ❖ Painted figures can be produced from any figure in the lists or designed for you.
- ❖ Due to the lead content in the figures I do not supply figures to children under 14 years old.
- ❖ You may see figures reviewed in the modelling press which do not yet appear in the catalogue. Updates do not always keep up with production of new items. Please contact me for details if you want to know more about them.

- ❖ Please tell me if you would like any of the figures beheaded and drilled to take a different head. These extra parts are **not** included in the price of the figure.
